Subject Index to Volume 10

PAGE

A

Activation Analysis, Use in Characterization of Hair Surface Contaminants 60
Admissibility of Standard Writings in Trials Involving Document Examinations 441
Aircraft Fatality Identification 121
Alcohol Disappearance from Blood, Breath and Urine of Obese and Diabetic Patients 480
Alcohol in Blood Samples, Stability 192
Alcohols, Determination by Gas Chromatography Using Halleomid Column 201
Alcohols, Determination by Gas-Liquid Chromatography 73
Alignment, Typewriters 23
Autopsy Observations, Psychiatric Evaluation of Assailant from Studies of Victim 263

B

Blood Carbon Monoxide, Colorimetric Determination 35
Blood Carbon Monoxide, Determination by Infrared Spectrophotometry 43
Blood Grouping of Dried Bloodstains 455
Bloodstains, Grouping of 455
Bloodstains, Grouping of, by Microtitration 319
Blue Velvet, Death from, in Mainliners 466
Book Reviews 108, 232, 376, 490
Breath Carbon Monoxide, Colorimetric Determination 35

C

Carbon Monoxide, Colorimetric Determination in Blood and Breath ... 35
Carbon Monoxide, Determination in Blood by Infrared Spectrophotometry 43
Chelation as a Method of Exclusion in Screening for Drugs 217
Chinese Medical Practice, Recognition of Counter-Irritation Marks Produced in 94
Chlordiazepoxide, Polarographic Determination 282
Counter-Irritation Marks in Chinese Medical Practice, Recognition 94
Criminality of Suicides Compared to Persons Coming to Natural Death 104

PAGE

D

Darvon ® (see Propoxyphene)
Death, Multiple Causes of 167
Determination of
Alcohols, Gas Chromatography, Hallcomid Column 201
Alcohols, Gas-Liquid Chromatography 73
Carbon Monoxide, Blood, Infrared Spectrophotometry 43
Carbon Monoxide, Blood and Breath, Colorimetric 35
Chlordiazepoxide, Polarographic 282
Diazepan, Polarographic 282
Gases, Infrared Spectroscopy 207
Pentachlorophenol 136
Propoxyphene, Spectrophotometric 179
Diabetics, Disappearance of Alcohol from 480
Diazepan, Polarographic Determination 282
Disease, Views of Pathologist on 407
Document Cases, Report Writing 446
Document Examinations, Admissibility of Standard Writings 441
Document Examinations, Comments on Procedures 433
Document Examinations, Trials Involving 422
Document Examinations, Use of 35 mm Camera 86
Drugs, Effects on Handwriting 335
Drugs, Views of Pathologist on 407

E

Eight Right Rifling, Notes on Identification 148
Examinations of Documents 433
Expert Witness, Trials Involving Document Examination 422

F

Firearms Rifled Eight Right, Identification 148
Fired Standards, Use of 1
Footprints, Use in Identification in Infanticide 225

G

Gas Analysis, Use of Dry Syringes for Preparing Mixtures, Analysis, and as Meters 239
Gas Chromatographic Determination of Alcohols 73, 201
Gases, Analysis by Infrared Spectrophotometry 207
Glass Fragments, Rapid Methods of Comparison 272
Glass, Individualization of Specimens 52
Grouping of Dried Bloodstains 319, 455

H

Hair Surface Contaminants, Use of Activation Analysis for Characterization 60
Hallcomid Column, Use in Gas Chromatographic Determination of Alcohols 201

PAGE

Handwriting, Effects of Drugs 335
Hemorrhage, Traumatic Intracerebral, Proposed Mechanism for 158
Homicide, Desire To Be Victim 415

I

Identification, Military Rifle and Light Machine Guns 294
Identification, Use of Footprints in Infanticide 225
Identification of Fragmented Aircraft Crash Victims 121
Identification of Phenothiazine Sulfoxides 308
Individualization of Glass 52
Infanticide, Use of Footprints for Identification 225
Infrared Spectroscopy for Analysis of Toxic Gases 207
Intent, Psychiatric Determination of 347
Intracerebral Vascular Lesions from Trauma, Proposed Mechanism 158
Invisible Ultraviolet Fluorescence, Use of 368
Isoniazid Poisoning, Case Report 313
Insecticides, Identification of Organic Phosphates in Lavage Fluids and Dermal Residues 473

L

Law Enforcement as a Partner of Science 113
Librium (see Chlordiazepoxide)

M

Machine Gun, Light, Identification 294
Mainliners, Death from Blue Velvet 466
Marks, Counter-Irritation, Chinese Medical Practice 94
Microscopy, Examination and Comparison of Glass Fragments 272
Microscopy, Examination of Minute Tissue Specimens 253
Military Rifle and Light Machine Gun Identification 294
Multiple Causes of Death 167
Murder, Desire To Be Victim 415

O

Obesity, Disappearance of Alcohol from Obese Patients 480
Organic Phosphates, Screening and Identification 473
Organization of Fired Standards 1

P

Pathologist, Role in Evaluating Potentially Toxic Substances 385
Pathologist, Views on Drugs and Disease 407
Pentachlorophenol Poisoning, Case Reports and Determination 136
Phenothiazines, Use of the Sulfoxides for Identification 308
Photography, Use of 35 mm Camera in Document Examination 86
Poisoning by Isoniazid 313
Poisoning by Pentachlorophenol 136
Polarographic Determination of Chlordiazepoxide and Diazepan 282
Propoxyphene, Specific Spectrophotometric Determination of 179

PAGE

Psychiatric Determination of Legal Intent 347
Psychiatric Evaluation of Assailant from Observations on Victim at Autopsy 263

Q

Questioned Document Cases, Report Writing 446
Questioned Document Examinations, Admissibility of Standard Writings 441

R

Report Writing in Questioned Document Cases 446
Rifling, Eight Right, Notes on Identification 148

S

Science and Law Enforcement as Partners 113
Screening for Drugs, Use of Chelation for Exclusion 217
Signatures, Forgery with Signatures Produced by Mass Duplication Methods 77
Stability of Alcohol in Blood Specimens 192
Stains, Grouping of Dried Bloodstains 319, 455
Standard Writings, Admissibility at Trial 441
Suicide in Relation to Criminality 104
Synthetic Signatures, Mass Duplication of Forged Signatures 77
Syringes, Use for Preparing Mixtures, for Analysis, and for Metering. 239

T

Toxic Gases, Determination by Infrared Spectroscopy 207
Toxic Substances, Role of Pathologist in Evaluation 385
Trace Evidence, Histologic Examination 253
Tranquilizers, Use of Phenothiazine Sulfoxides for Identification 308
Typewriter Alignment 23

U

Ultraviolet Fluorescence, Invisible, Use of 368

V

Valium (see Diazepan)
